

FREELANCE UI/UX DESIGN

PORTFOLIO

RIFQI HAIKAL

INTRODUCTION

ABOUT ME

Hi, I am Rifqi Haikal, A UI/UX Designer with a developer's mindset, dedicated to creating captivating and user-friendly digital experiences. My foundation in Informatics and hands-on development experience allows me to design interfaces that are not only aesthetically pleasing but also technically feasible and highly functional.

My key advantage lies in bridging the critical gap between design and development. In previous roles as a Frontend Developer and Programmer, I was directly responsible for translating complex UI/UX designs into interactive, production-ready applications. This practical experience ensures I design with implementation in mind, creating logical user flows and consistent visual systems that simplify communication and accelerate the development lifecycle.

EDUCATION

BACHELORS OF INFORMATICS

Del Institute of Technology
2021 - 2025

SKILLS

- UI/UX Design
- Web Development
- Mobile Development

EXPERIENCE

ANGULAR DEVELOPER (FRONTEND DEV)

PT Javan Cipta Solusi
Sep 2024 - Jan 2024

IT PROGRAMMER INTERN

PT Federal International Finance
Jun 2024 - Aug 2024

PROJECT SHOWCASE

DELPICK - DELIVERY APPS

As the team leader for my Informatics undergraduate final project, I spearheaded the development of "DEL-PICK," a full-stack mobile delivery system.

- Actively contributed to the design and implementation of the user interface.
- Optimized real-time order processing and route efficiency using the Euclidean Distance and Haversine formulas.

PROJECT SHOWCASE

ASSETS MANAGEMENT APP DESIGN

Designing the appearance of the management system application in 1 day timeline.

- Logical user flow, easy to use, minimal friction.
- Consistent use of colors, fonts, icons, and UI elements.
- Aesthetics & Clarity – Clean design, adequate spacing, maintained contrast.

PROJECT SHOWCASE

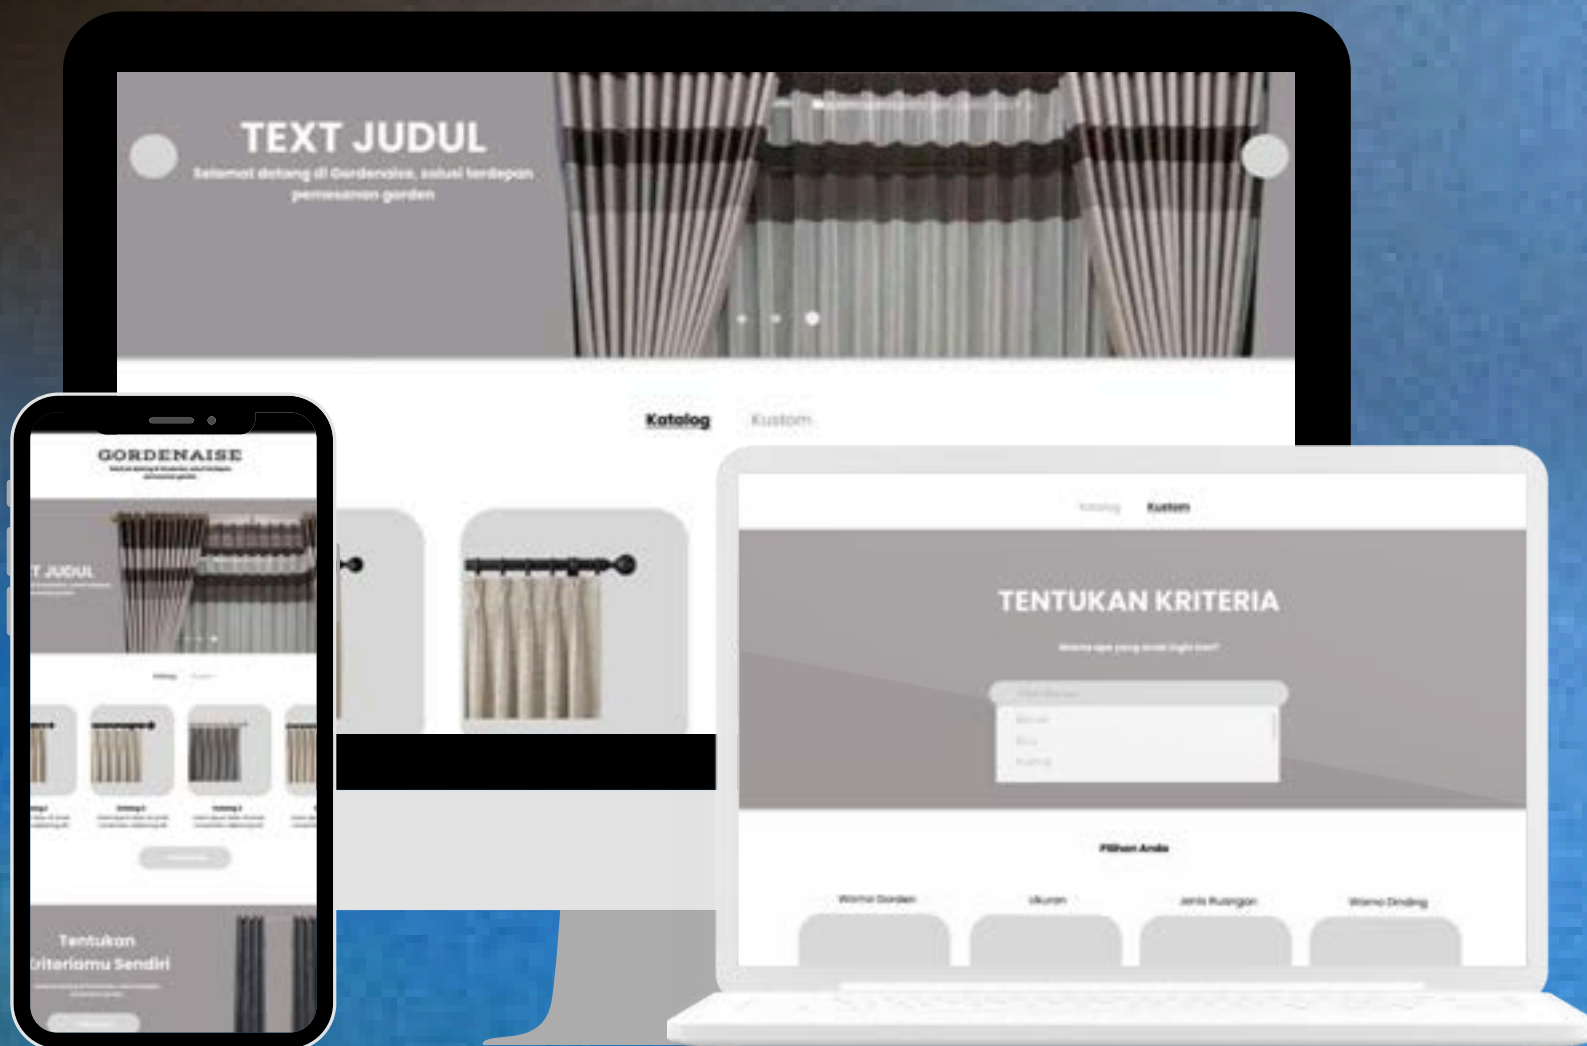

LOGO DESIGNER - IT DEL FEST 2023

- Designed the official logo for the IT Del Festival 2023, establishing the core visual identity used across all event materials.

PROJECT SHOWCASE

GORDENAISE APP DESIGN

Gordenaise App Design

- Create a modern and highly engaging user experience for the Gordenaise App.
- Developing a sleek and intuitive interface.
- Ability to translate complex ideas into clear, attractive, and user-friendly digital solutions.

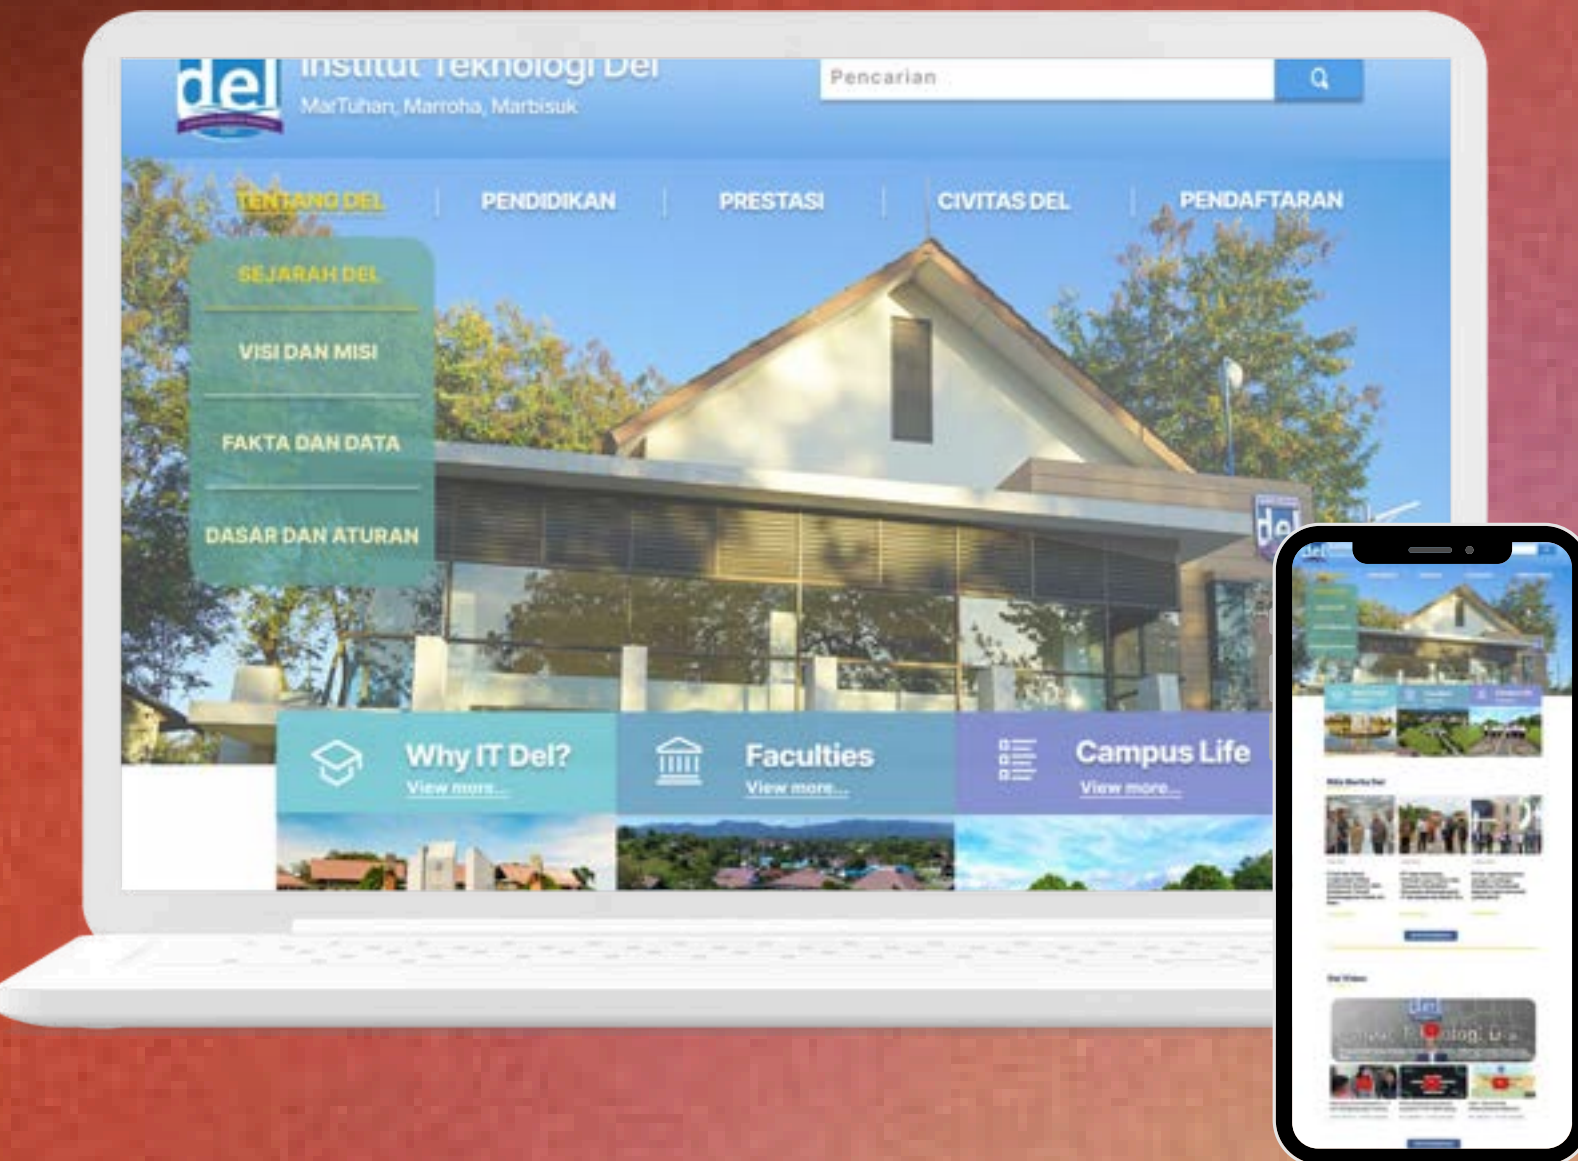

PROJECT SHOWCASE

CAMPUSS WEBSITE DESIGN

Comprehensively redesign the IT Del campus website to achieve a more modern aesthetic and engaging user experience.

- Creating an intuitive and visually appealing interface.
- Successfully applied key UI/UX principles in a practical setting
- Achieved a perfect grade, validating the design approach and proficiency.

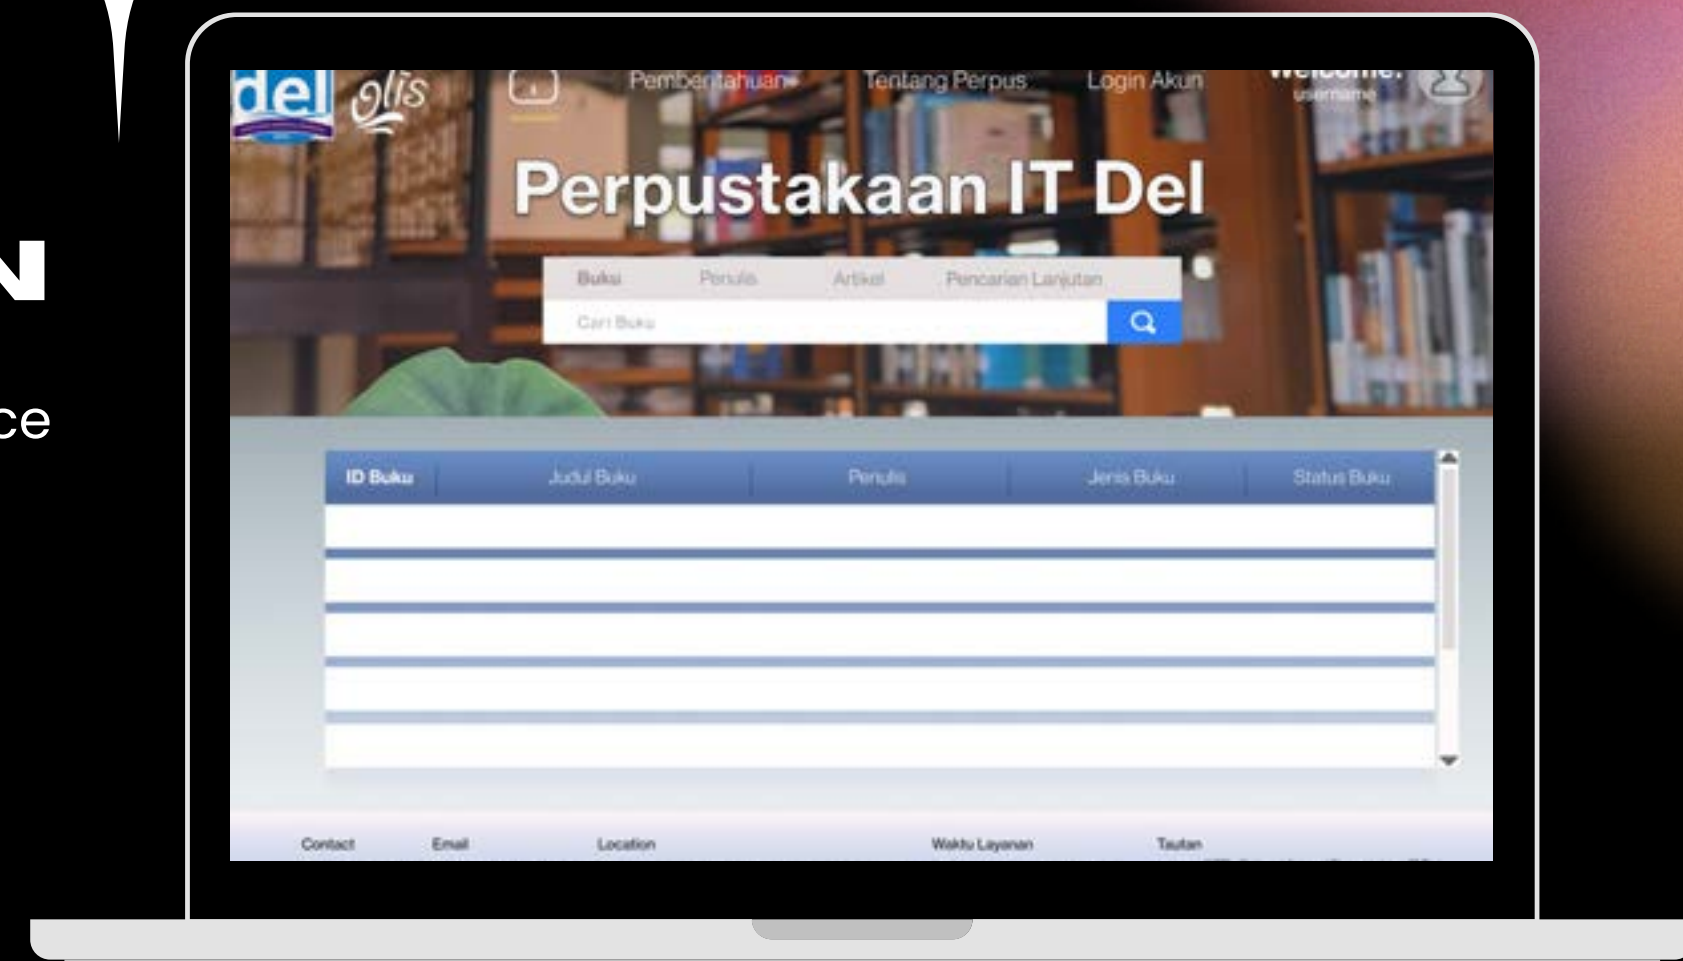

PROJECT SHOWCASE

LIBRARY WEBSITE DESIGN

Modernize the campus library website to significantly enhance user engagement and navigability.

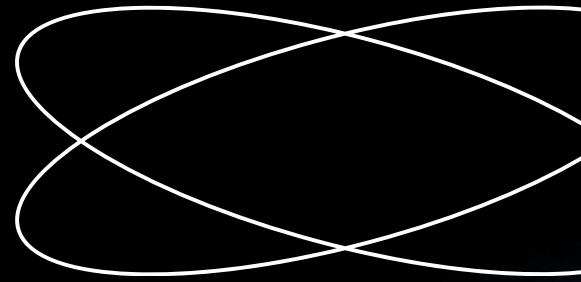

- Creating a visually appealing interface.
- Improving the overall user experience
- Applying core UI/UX principles to a practical challenge.

RIFQI HAIKAL

CERTIFICATE AND AWARD

AWARDEE - 3RD PLACES OF STUDENT CREATIVITY PROGRAM.

This achievement was for our project, Toba Trip, which I led from the initial concept phase, ultimately transforming a collaborative idea into a compelling, award-winning project proposal.

CERTIFIED INDUSTRY- READY TALENT (MSIB 2024)

I participated in a 6-month internship at a company to prepare myself for working in the industrial world. My contributions led to a perfect grade in the program.
