RIFQI HAIKAL CHAIRIANSYAH

Jakarta, Indonesia | 085362784585 | r.haikal1610@gmail.com | Linkedin | Github | Portofolio

Software Engineer with 2+ years of experience and cross-industry expertise. Transforming complex business logic into scalable digital platforms for Oil & Gas, IT Consultant, and Fintech sectors. Expert in React, Next.js, Java and .NET, with a passion for architecting end-to-end solutions from UI/UX prototypes to production-ready deployments. I am ready to hit the ground running, and contribute to a culture of engineering excellence from day one.

Work Experiences

PT.PERTAMINA HULU ROKAN (PHR) – OIL & GAS INDUSTRY — **South Jakarta, Indonesia**

IT BUSINESS SOLUTION INTERN — Dec 2025 – Present

- Spearheaded the end-to-end development of an Operational Activity Management System for the Exploration Function, streamlining complex oil & gas business processes into a digital platform.
- Designed high-fidelity UI/UX prototypes using Figma, adhering to Pertamina's strict design standardization guidelines to ensure consistency and usability.
- Architected and integrated a robust database schema using SQL Server, ensuring seamless synchronization with existing legacy system tables and data structures.
- Developed a scalable web application using ASP.NET MVC, complying with the company's Application Development Standards (ADS), featuring secure authentication integrated with the corporate employee database.
- Embedded Power BI dashboards directly into the application to provide real-time visualization and monitoring of exploration operational data for stakeholders.

Tech of Stack: ASP .Net MVC, Python, Figma, SQL Server, Power BI and C#.

BADAN RISET DAN INOVASI NASIONAL (BRIN) - GOVERNMENT — **Central Jakarta, Indonesia**

SOFTWARE ENGINEER (PROJECT-BASED PARTNER) — Oct 2025 – Dec 2025

- Recruited specifically as a technical partner to accelerate the finalization and enhancement of the Research and Innovation Funding Monitoring System within a critical one-month timeline.
- Successfully optimized the financial management modules to track research fund inflows and outflows (expenses & income), ensuring data accuracy and accountability.
- Acted as a technical bridge between non-technical stakeholders and developers, facilitating code reviews and overseeing the deployment pipeline to production servers.

Tech of Stack: React.js, PHP, Laravel, SQL, Postman, and RESTful API.

PT.JAVAN CIPTA SOLUSI – IT CONSULTANT — **Yogyakarta, Indonesia**

ANGULAR DEVELOPER INTERN | MSIB (Internship and Certified Independent Study) — Sep 2024 - Jan 2025

- Engineered 15+ user-facing features across 2 major web applications using modern frameworks like React.js, Angular, and Vue.js.
- Demonstrated extreme adaptability by successfully delivering 7 diverse projects, contributing in various roles from development to system analysis (BPMN) and Quality Assurance (QA).
- Developed 10+ essential backend services using Express.js and Spring Boot to support core application functionality.

Tech of Stack : Springboot, Express.js, React.js, Angular, and Vue.js

PT.FEDERAL INTERNATIONAL FINANCE – MULTIFINANCE — **South Jakarta, Indonesia**

FULLSTACK DEVELOPER INTERN | Individual Internship — Jun 2024 - Aug 2024

- Accelerated the enhancement of a critical internal company application by developing over 20 new features with Angular and building 10+ supporting backend services with Java Spring Boot.
- Managed and standardized documentation for over a dozen APIs using Swagger, ensuring seamless data integration and compliance within a professional fintech environment.

Tech of Stack : Angular, Springboot, and Swagger.

FREELANCE CLIENT PROJECTS — **Remote/Work from Home**

WEB DEVELOPER — Aug 2023- Present — View Project

- Led 10+ end-to-end projects for diverse clients (academic organizations, MSMEs), managing the full product lifecycle from initial consultation and user research to UI design, prototyping, and final development.
- Translated complex client requirements and high-fidelity Figma designs into 20+ pixel-perfect, component-based UIs using TypeScript, React.js, and Next.js.

Tech of Stack: Figma, React.js, Next.js, Vue.js, TypeScript, JavaScript.

Education

INSTITUT TEKNOLOGI DEL — Aug 2021 - Aug 2025

Bachelor Degree in Informatics, GPA 3.39/4.00

Relevant CourseWork : Web-based Application Development, Software Testing and Quality Assurance, Software Analysis and Design, and Mobile Application Development.

Project Showcase

HIRING PLATFORM FOR JOBSEEKER Oct 2025

Modern hiring platform enabling administrators to manage job listings and candidates to browse/apply. View Web

- Implemented secure user authentication and role-based access control (RBAC) leveraging Supabase Auth.
- Designed and built reusable, responsive UI components (Buttons, Inputs, Cards, Badges) using Tailwind CSS and Headless UI, ensuring an intuitive user experience (UX) across desktop and mobile platforms.
- Managed application state efficiently with Zustand and React Context API.
- Integrated React Hook Form for robust form handling and validation within the candidate application system.

Programming Languages : Next Js 16, TypeScript, Tailwind, Supabase.

MARKETPLACE INFLUENCER PLATFORM Sep 2025

Simplifies influencer discovery and collaboration for brands. View Web

- Engineered a full-stack marketplace from scratch using a modern tech stack (Next.js 14, TypeScript, Supabase) to connect brands with influencers.
- Designed and implemented a pixel-perfect, responsive UI/UX with Tailwind CSS, featuring separate, optimized views for desktop and mobile to ensure a seamless user journey.
- Responsive design with separate, optimized UI for desktop and mobile.
- Developed a secure platform with role-based access control (RBAC) for four distinct user types: Admin, Client, Influencer, and Guest.

Programming Languages : Next Js 14, TypeScript, Tailwind, Supabase.

DEL-PICK: MOBILE DELIVERY & LOGISTICS APP Aug 2024 – Jul 2025

Mobile delivery system designed to overcome logistics and transportation problems. View Project

- Led a 3-person team through the entire product lifecycle, from initial concept to a fully functional mobile delivery application.
- Translated high-fidelity Figma UI/UX designs into 20+ polished and intuitive screens using Flutter, demonstrating a strong eye for visual detail and user experience.
- Built and integrated 30+ RESTful APIs with Express.js to power real-time order processing, driver matching, and route optimization.

Programming Languages : Flutter, Express Js, Dart, JavaScript, and C++

SPMB IT DEL: STUDENT ADMISSION PORTAL Sep 2023 - Dec 2023

Repository

Web-based application used as information platforms for candidate of IT Del Students. View Web

- Significantly enhanced a large-scale Laravel 9 application by developing 10+ key features and building 5+ integral backend services, directly improving the student admission workflow.

Programming Languages : HTML, PHP, and Blade.

My Portfolio

Web Portfolio: https://rifqihaikalch.netlify.app

Tech Stack : Next.js 14, TypeScript, and Tailwind CSS

Skills

HARD SKILLS

- **Frontend Development**: TypeScript, JavaScript, HTML, CSS, Tailwind, React.js, Angular, Vue.js, Next.js.
- **Backend Development**: Java (Spring Boot), PHP (Laravel), C#, ASP .Net MVC, Node.js (Express.js).
- **Tools & Testing**: Postman, Katalon, Git, Swagger.

SOFT SKILLS

Problem Solving, Critical Thinking, Decision Making, Management, Teamwork, Communication And Creative.

LANGUAGES

Bahasa Indonesia : Native.

English : Upper Intermediate.
