

RIFQI HAIKAL CHAIRIANSYAH

Jakarta, Indonesia | 085362784585 | r.haikal1610@gmail.com | [Linkedin](#) | [Github](#) | [Portofolio](#)

A creative UI/UX Designer and Front-End Developer passionate about building engaging digital experiences. With two years of hands-on experience, I have developed technical and creative solutions as a Freelancer and in professional roles at a leading IT consultant and a Multi-finance company. As a Bachelor of Informatics from Institut Teknologi Del, I am constantly exploring new technologies and am eager to apply my skills at the intersection of design and development in a dynamic team.

Work Experiences

PT.JAVAN CIPTA SOLUSI – IT CONSULTANT

FRONTEND DEVELOPER INTERN | MSIB (Internship and Certified Independent Study)

Yogyakarta, Indonesia

Sep 2024 - Jan 2025

[View Certificate](#)

- Engineered 15+ user-facing features across 2 major web applications using modern frameworks like React.js, Angular, and Vue.js.
- Demonstrated extreme adaptability by successfully delivering 7 diverse projects within a 4-month timeline, contributing in various roles from development to system analysis (BPMN) and Quality Assurance (QA).
- Developed 10+ essential backend services using Express.js and Spring Boot to support core application functionality.

Tech of Stack : Springboot, Express.js, React.js, Angular, and Vue.js

PT.FEDERAL INTERNATIONAL FINANCE – MULTIFINANCE

FULLSTACK DEVELOPER INTERN | Individual Internship

Jakarta Selatan, Indonesia

Jun 2024 - Aug 2024

[View Certificate](#)

- Accelerated the enhancement of a critical internal company application by developing over 20 new features with Angular and building 10+ supporting backend services with Java Spring Boot.
- Managed and standardized documentation for over a dozen APIs using Swagger, ensuring seamless data integration and compliance within a professional fintech environment.

Tech of Stack : Angular, Springboot, and Swagger.

Education

INSTITUT TEKNOLOGI DEL

Bachelor Degree in Informatics, GPA 3.39/4.00

Aug 2021 - Aug 2025

Relevant CourseWork : Web-based Application Development, Software Testing and Quality Assurance, Software Analysis and Design, and Mobile Application Development.

Event and Organization

GOOGLE DEVELOPER STUDENT CLUB IT DEL

Public Relations - Core Team

Oct 2023 – Dec 2024

[View Exp](#)

- Selected as a core team member to manage community outreach and engagement.
- Successfully hosted 3 online training and introduction events as the primary MC, effectively managing the program flow for an average audience of 50 to 100 students and developers.

STUDENT EXECUTIVE BOARD

Department of Public Relations and Service - Head of the Social Division

Aug 2023 – Sep 2024

[View Exp](#)

- As Head of the Social Division, acted as the primary liaison to build and maintain strong relationships with various external parties for off-campus collaborations. Managed various off-campus activities.

Development Showcase

HIRING PLATFORM FOR JOBSEEKER

Modern hiring platform enabling administrators to manage job listings and candidates to browse/apply.

Oct 2025

[View Web](#)

- Implemented secure user authentication and role-based access control (RBAC) leveraging Supabase Auth.
- Designed and built reusable, responsive UI components (Buttons, Inputs, Cards, Badges) using Tailwind CSS and Headless UI, ensuring an intuitive user experience (UX) across desktop and mobile platforms.
- Managed application state efficiently with Zustand and React Context API.
- Integrated React Hook Form for robust form handling and validation within the candidate application system.

Programming Languages : Next Js 16, TypeScript, Tailwind, Supabase.

MARKETPLACE INFLUENCER PLATFORM

Simplifies influencer discovery and collaboration for brands.

Sep 2025

[View Web](#)

- Engineered a full-stack marketplace from scratch using a modern tech stack (Next.js 14, TypeScript, Supabase) to connect brands with influencers.
- Designed and implemented a pixel-perfect, responsive UI/UX with Tailwind CSS, featuring separate, optimized views for desktop and mobile to ensure a seamless user journey.
- Responsive design with separate, optimized UI for desktop and mobile.
- Developed a secure platform with role-based access control (RBAC) for four distinct user types: Admin, Client, Influencer, and Guest.

Programming Languages : Next Js 14, TypeScript, Tailwind, Supabase.

DEL-PICK: MOBILE DELIVERY & LOGISTICS APP

Aug 2024 – Jul 2025

Mobile delivery system designed to overcome logistics and transportation problems.

[View Project](#)

- Led a 3-person team through the entire product lifecycle, from initial concept to a fully functional mobile delivery application.
- Translated high-fidelity Figma UI/UX designs into 20+ polished and intuitive screens using Flutter, demonstrating a strong eye for visual detail and user experience.
- Built and integrated 30+ RESTful APIs with Express.js to power real-time order processing, driver matching, and route optimization.

Programming Languages : Flutter, Express Js, Dart, JavaScript, and C++

SPMB IT DEL: STUDENT ADMISSION PORTAL

Sep 2023 - Dec 2023

Web-based application used as information platforms for candidate of IT Del Students.

[Repository](#)

[View Web](#)

- Significantly enhanced a large-scale Laravel 9 application by developing 10+ key features and building 5+ integral backend services, directly improving the student admission workflow.

Programming Languages : HTML, PHP, and Blade.

Design Showcase

BEAUTY E-COMMERCE MOBILE APP DESIGN

Oct 2025

Designing a modern and intuitive mobile e-commerce experience dedicated to beauty and skincare products.

[View Prototype](#)

- Developed a comprehensive, component-based design system in Figma, creating reusable elements, navigation, and product cards to ensure visual consistency and accelerate the development workflow.
- Designed an intuitive, end-to-end user journey, translating user needs into a visually-driven interface with a minimalist aesthetic to enhance product discovery and simplify the purchase funnel.
- Built a high-fidelity, interactive prototype incorporating smooth navigation flows and micro-interactions to simulate a realistic user experience and validate design concepts before development.

E-COMMERCE WEBSITE DESIGN

Sep 2025

Designing the requirements of an electronics store to sell its products to facilitate interactions with customers.

[View Prototype](#)

- Designed a complete, visually-driven user experience for an electronics e-commerce platform, focusing on a clean, minimalist aesthetic and a clear visual hierarchy to enhance product discovery.
- Built a fully interactive, high-fidelity prototype in Figma, incorporating smooth animations and micro-interactions to create a modern and engaging user journey from homepage to checkout.

ASSETS MANAGEMENT DESIGN

Aug 2025

Designing the appearance of the management system in 1 day timeline.

[View Prototype](#)

- Rapidly designed a complete asset management system UI within a 1-day timeline, focusing on creating a logical user flow with minimal friction.
- Established a cohesive and scalable design system by ensuring consistent use of colors, typography, icons, and UI elements for optimal clarity and aesthetics.

CAMPUSS WEBSITE DESIGN

Feb 2024

The previous website had an outdated interface that struggled to engage users and failed to reflect the institute's innovative spirit.

[View Prototype](#)

- Revitalized an outdated campus website by conceptualizing and designing a dynamic, modern interface that better reflects the institute's innovative spirit.
- Solved critical user engagement issues by introducing interactive components and a visually-driven layout that streamlined navigation and effectively showcased campus life.
- Successfully applied key UI/UX principles to create an intuitive and visually appealing interface for all user types.

My Portfolio

Frontend Dev Portfolio: <https://lnkd.in/gNMw-qc4>

Tech Stack : Next.js 14, TypeScript, and Tailwind CSS

UI/UX Design Portfolio: <https://lnkd.in/gkrx4fgE>

Tools : Figma

Skills

HARD SKILLS

- **UI/UX Design:** Figma, Adobe Photoshop, Canva.
- **Frontend Development:** [TypeScript](#), [JavaScript](#), [HTML](#), [CSS](#), Tailwind, React.js, Angular, Vue.js, Next.js.
- **Backend Development:** [Java](#) (Spring Boot), [PHP \(Laravel\)](#), Node.js (Express.js).
- **Tools & Testing:** Postman, Katalon, Git, Swagger.

SOFT SKILLS

Problem Solving, Critical Thinking, Decision Making, Management, Teamwork, Communication And Creative.

LANGUAGES

Bahasa Indonesia : Native.

English : [Upper Intermediate](#).
